

REMARKS

Claims 1-21 are pending. Claims 8-14 have been cancelled.

Claims 8 and 15 are rejected under 35 U.S.C. §101 as being directed towards non-statutory subject matter. Claims 1-21 are rejected under 35 U.S.C. §102(e) as being anticipated by Taylor.

Regarding the 35 U.S.C. §101 rejection, claims 8-14 have been removed from the case. Additionally, independent claims 1 and 15 have been amended to recite a web server that includes a database, and that the claimed operation results in the database being updated. It is respectfully believed that the independent claims now recite statutory subject matter. Accordingly, it is requested that this rejection be withdrawn.

Independent claims 1 and 15 have now been amended to more particularly recite the manner in which personalized information may be updated in an on-line database. The claims now recited that the web server will verify that all information required by the site has been entered. If so, then the user will be presented with a page to check and conform that the information is corrected. If the user confirms the information, then the information will be updated and stored in the database. As will be appreciated, such a process will help ensure that the user's information is correct and minimize errors. Support for the amendment may be found at paragraph [0075] and throughout the specification.

It is respectfully submitted that Taylor does not teach or suggest the process as now claimed.

It is respectfully requested that the pending case be reconsidered in light of these Remarks and Amendments and moved to allowance.

If the Examiner has any questions regarding this application or this response, the Examiner is personally invited to telephone the undersigned at 775-848-5624.

Respectfully submitted,  
SIERRA PATENT GROUP, LTD.
